LION IS ENVOY OF PEACE

BRITAIN SEEKS TO INFLUENCE TURKEY AGAINST WAR.

May Not Oppose Bulgarian Independence, But Compensation May Be Asked—Troops to Be Kept.

London, Oct. 14.—Foreign Secretary Grey and M. Jowelsky, Russian minister of foreign affairs, spent Tuesday in telegraphic correspondence with the capitals of Europe regarding the forthcoming conference of the powers to settle the near-eastern question. Details of this meeting, however, have not been arranged.

In falling in with the proposals of M. Jowelsky Great Britain has acted with the concurrence of Turkey. If Turkey takes British advice, she will accept the independence of Bulgaria and the annexation of Bosnia and Herzegovina as accomplished facts, and ask for compensation.

The report circulated Tuesday that the powers are considering handing over the Sandjak of Novi-Pazar, in European Turkey, to Serbia, and the statement from Paris that Bulgaria has given Turkey three days to recognize her independence, are not credited.

Sofia, Oct. 14.—There is no cloud on the Bulgarian horizon in the official view here of events that have occurred since the proclamation of Bulgarian independence by Prince Ferdinand October 6. The government is convinced that the chancelleries of Europe will take a more favorable view of Bulgaria's action as soon as the danger of a general conflagration is over.

The troops now under arms, including the reserves recently called out, reach a total of 120,000 men. They will keep under the colors for another month. The guards on the frontier have been given stringent instructions to keep well within the territorial limits of the new kingdom and to avoid clashing with the Turks.

The illness of Prince Boris, eldest son of King Ferdinand, is the reason for the absence of members of the royal family from the festivities in Sofia in connection with the king's triumphant entry into his capital. Prince Boris goes under the title of exarch in Bulgaria.

Paris, Oct. 14.—A special dispatch from Constantinople states that the German ambassador has declared to Tewfik Pasha, the Turkish foreign minister, that Germany would follow the line of conduct adopted by Great Britain regarding the annexation by Austria of Bosnia and Herzegovina. As a consequence of the attitude of the powers, Austria-Hungary now stands alone.

MRS. E. D. B. REESOR, A SUCCESSFUL BANKER.

Superficially, finance seems to be unimpaired. Yet Mrs. E. D. B. Reesor has made a success of banking which is phenomenal, and more than this, she advises it as a training for young ladies. Recently she said:

"A young woman upon leaving college wishes to enter into some profession or business. Banking, of all professions, offers the truest work, for banking is legitimate. It rings true and in dealing with the public there is nothing to hide."

Mrs. Reesor is in the Crown Bank of Canada and her work is of such an excellent character that her loss from the banking force would be seriously felt.

Since its discovery one year ago the new drug, poslam, has successfully cured thousands of chronic cases of eczema and other distressing skin affections. Heretofore poslam has been dispensed solely for the benefit of eczema patients in large hospitals, but for a month's treatment. This was found to be an inconvenience to many thousands who use it for minor skin troubles, such as pimples, blackheads, herpes, acne, scaly scalp, complexion blemishes, itching feet, piles, etc., which render life a small quantity in cure. To overcome this, and in response to urgent appeals, the dispensers of poslam have been obliged to adopt, in addition to the regular two-dollar package, a special fifteen-cent size which in future may be found on sale at Holmstrom's, Smith Drug Co., People's Drug Co., and other leading drug stores in Janesville, or may be ordered direct from the Emergency Laboratories, No. 32 West 24th Street, New York City. In all eczema cases poslam stops itching with first application, and proceeds to heal immediately; chronic cases being cured in two weeks. In less serious skin troubles, results are seen after an overnight application. Samples for experimental purposes may still be had, free of charge, by writing to the laboratories for them.

This was found to be an inconvenience to many thousands who use it for minor skin troubles, such as pimples, blackheads, herpes, acne, scaly scalp, complexion blemishes, itching feet, piles, etc., which render life a small quantity in cure. To overcome this, and in response to urgent appeals, the dispensers of poslam have been obliged to adopt, in addition to the regular two-dollar package, a special fifteen-cent size which in future may be found on sale at Holmstrom's, Smith Drug Co., People's Drug Co., and other leading drug stores in Janesville, or may be ordered direct from the Emergency Laboratories, No. 32 West 24th Street, New York City. In all eczema cases poslam stops itching with first application, and proceeds to heal immediately; chronic cases being cured in two weeks. In less serious skin troubles, results are seen after an overnight application. Samples for experimental purposes may still be had, free of charge, by writing to the laboratories for them.

Since its discovery one year ago the new drug, poslam, has successfully cured thousands of chronic cases of eczema and other distressing skin affections. Heretofore poslam has been dispensed solely for the benefit of eczema patients in large hospitals, but for a month's treatment. THE DEMOCRATIC PARTY

Senator T. P. Gore, democrat, of

Oklahoma, now a Bryan supporter,

in a speech delivered at Dallas, Tex.,

in 1896, said:

"The trouble with the democratic

paragraphs. They are characteristic

of the man:

"Anything that makes capital idle, or which reduces or destroys it, must reduce both wages and the opportunity to earn wages."

"The administration of exact justice by courts without fear or favor, unmoved by the influence of the wealthy or the threats of the demagogue, is the highest ideal that a government of the people can strive for, and any means by which a savior, however unpopular or poor, is deprived of enjoying that, are to be condemned."

"If we assume control over a people for the benefit of that people (as in the Philippines) and with the purpose of developing them to a self-governing capacity and with the intention of giving them the right to become independent when they shall show themselves fit, the charge that we are imperialists is utterly without foundation."

"The present business system of the country rests on the protective tariff, and any attempt to change it to a free trade basis will certainly lead to disaster."

"The democratic party has no policy which the country can depend upon. Its whole stock in trade is that of irresponsible criticism and obstruction, and when charged with the responsibility of doing anything it utterly fails."

"Mr. Bryan asks me what I would do with the trusts. I answer that I would restrain all unlawful trusts with all the efficiency of injunctive process and would punish with all the severity of criminal prosecution every attempt on the part of aggregated capital to suppress competition."

"The leader of the republican party during the Civil war was Abraham Lincoln, and it has never lost the inspiration of his leadership."

"As a party shows itself homogeneous, able to grasp the truth with respect to new issues, able to discard unimportant differences of opinion, sensitive with respect to the successful maintenance of government, and highly charged with the responsibility of its obligation to the people at large, it establishes its claim to the confidence of the public, and to its continuance in political power."

"The course of the republican party since its organization in 1850, and its real assumption of control in 1861, down to the present day, is remarkable for the foresight and ability of its leaders, for the discipline and solidarity of its members, for its efficiency and deep sense of responsibility for the preservation and successful maintenance of the government, and for the greatest resourcefulness in meeting the various trying and difficult issues which a history of now a full half century has presented for solution."

CONSTITUTIONAL AMENDMENT

The voters of the state are to decide, at the coming election, whether or not they will adopt any or all of four constitutional amendments contained in joint resolutions adopted by both houses of the legislature. The full text of these proposed amendments will be found in the election notices which appear in another part of the paper.

The first simply extends the time granted the governor for signing bills, from three to six days, and there can be no objection to the amendment. The second has to do with state aid for good roads. There is nothing compulsory about it and the amendment should certainly pass. It contemplates aid, both financial and supervisory, in counties where the county and town work together, as they are now doing in Rock county.

The third has to do with the right of suffrage and aims to bar the foreign vote, until the foreigner has been in this country long enough to vote with some degree of intelligence. The law now provides that when a man has declared his intention of becoming a citizen and taken out his first papers, he may vote, but he must be a resident of the country for five years, before he becomes a full-fledged citizen, when second papers are issued.

The amendment recognizes no first intention, but demands a five years' residence, with a view to developing more intelligent citizenship on the part of our adopted brothers from across the seas. It is a wise provision and should be supported by every loyal American voter.

When the fact is considered that in foreign nations are contributing to our population at the rate of 1,000,000 people every year, the necessity for safeguards will be realized. It requires time for this great mass of new recruits to become assimilated, and no man should be permitted to take part in making our laws, until he knows what he is doing.

The average American boy at 16 is better qualified to vote than the average foreigner who comes to us, yet the boy must wait five years. That is all right, but the other proposition is all wrong.

Give the foreigner time to become acclimated. It will be no hardship to him, and infinitely better for the country.

The fourth amendment is of the radical reform order, and is in line with one of President Roosevelt's pet theories. It has to do with taxing incomes, and is the outgrowth of discussion and agitation about predatory wealth and bloated fortunes.

There may be some merit in it, but it is so-called in principle, and there is no occasion for such a law in Wisconsin. Capital and incomes have

been taxed to the limit, during the past 12 months and a rest is needed.

Heart to Heart Talks.

LIKE FATHER, LIKE SON.

Young Beach Hargis of Kentucky a few months ago shot and instantly killed his father.

Monstrous!

Behind the bald facts of the shooting are some things that throw a different light on the dark shadows of the pitiful tragedy.

The plans for the defense in the trial of the young man show some hideous disclosures in the early years of Hargis' life.

When he was but a child his father often made him drunk with whiskey. He did so for his diversion, laughing at the manly antics of the boy. Not content to be entertained alone by his child's debauchery, he invited in the neighbors to enjoy the vaudeville.

Is it any wonder the boy grew up a drunkard?

Or that, seduced by his father from decency, he should be without natural affection?

At the early age of fourteen Beach Hargis was a besotted young savage. His prime ambition was to shoot some enemy from behind a hedge or engage in the feud wars of the countryside.

From infancy Hargis taught his son the expert use of firearms, thus pointing a gun at his own breast.

Later, says the boy, his father developed a strong hatred toward him. Time and again, without excuse, he beat the boy into insensibility.

Put yourself in the place of the son, with his rearing and surroundings. He was little more than a young animal, without conscience or mercy or regard for human life.

And THE BOY WAS WHAT HIS FATHER MADE HIM.

The teaching of this tale of horror is plain—

You will reap what you sow, and more than you sow. The law of compensation holds. Suffering necessarily follows sin.

And YOUR BOY will be what you make him.

Now he is putty in your hands. Soft putty takes impressions. You can mold your boy into good or evil shape. By and by the putty will harden. It is then too late to mold it.

If you sow in that boyish heart evil thoughts, hatred, recklessness, disregard of your fatherhood, why—

YOUR BOY WILL KILL YOU.

Oh, no; not with a gun perhaps, but there is more than one way to kill a father. It may be by a slower process, less merciful than gunshot, but he will kill you just the same.

Are you bringing up a partridge?

A tooth will not ache until it is pretty near ready for the grave yard. Drop in next time you go past, and let me tell you how indispensable your teeth are to you and their importance to your health.

I'll examine your teeth if you wish and tell you what it will cost to have them put in perfect order. You need not feel under obligations to have the work done at once.

JAMES CALE WAS IN COURT TODAY

IS ANXIOUS TO DELAY TRIAL AND WILL BE CLOSELY WATCHED.

RAID ON COSGROVE PLACE

Up River Was Made by Officers Last Evening—Daley Cosgrove and Florence Sprague Fined—Daley's Gallup Sent to Industrial School.

James Cale, the ex-convict who was arrested in a saloon at the corner of Halsted and Forty-second street in Chicago on advice furnished by Chief Appleby and brought here by Sheriff Fisher and Deputy Sheriff Fred Gilman last evening, appeared in municipal court this afternoon to answer to the charge of holding up and robbing Herman Peschke of \$8 in money and a watch and other valuables at an early hour last Saturday morning. He urged that the preliminary examination be deferred as long as possible owing to the fact that he expected help from his father, Congressman Thomas Cale of Alaska, who is at the Hotschard reservation in Alaska, so the son says, and will not be in Bond in Lake until the 20th. The examination was set for next Monday afternoon at two o'clock at which time Albert Dorsey will also appear in court. Daley was fixed at \$1,000. Cale was closely questioned today by Detective Dennis Sullivan of Milwaukee who came out to look him over and see if he answered to descriptions of the author of a recent job in the Cream City. Mr. Sullivan was satisfied that Cale was not the man. The latter admits he was in Janesville Friday night and saw Dorsey but denies participation in the hold-up.

Raid on Cosgrove Place. About midnight the father of fourteen-year-old Beale Gallup, who was given another chance several weeks ago to save himself from a term in the industrial school, complained to the police that the girl was in a questionable resort near the Pratt stone quarry, up river, and frequented by a woman named Daisy Cosgrove. Chief Appleby turned the matter over to the sheriff and the patrol wagon was sent out there. Daisy Cosgrove, Beale Gallup, Florence Sprague, and a man who gave his name as Ben Howard were arrested and brought to town. The Cosgrove woman paid a fine and costs amounting to \$28.40 for frequenting a disorderly place. Florence Sprague must pay \$18.40 or spend 15 days in jail. She has not yet produced the cash but expects to. Beale Gallup was committed to the Girls' industrial school in Milwaukee until she shall be 21 years of age, or be released by the authorities. Both Chief Appleby and Sheriff Fisher gave an opinion on the stand that her present home environment was no fit place for her. The father who promised to appear and sign a complaint against her, failed to show up.

Bike Recovered. The bicycle which was stolen from William Koch last Sunday has been recovered by the police. A man living near the C. & N. W. yards telephoned the police today that he saw the description in last night's Gazette and that it fitted a machine he bought of a stranger for 50 cents. Wealthy and Drunk. For drunkenness Matthew Bradley paid a fine of \$10 and costs this morning. As he had \$135 on his person the cash came easy. Jack Kondrick could not produce \$1 and costs and went to the county jail for seven days.

PLAY RETURN MATCH WITH EDGERTON CLUB

Y. M. C. A. Tennis Club Members Spent the Day in the T. C. C. City.

Seven members of the Y. M. C. A. tennis club went to Edgerton today to play a return match with the club in that place. Those who went were A. P. Lovejoy, Dr. Wolcott and H. S. Lovejoy, who made the trip in an auto, F. E. Williams, Herbert Holme, J. S. Taylor and P. E. Hren.

The day was spent in playing the match. The Edgerton club entertained the visitors from Janesville at luncheon and dinner. The local men returned this evening.

LOCAL PARAGRAPHS.

High grade tailored suits for ladies, misses and juniors. Men's beautiful styles to select from at exceptionally low prices. T. P. Burns.
Solway—burn it as you do hard coal. The members of Carroll M. E. church will hold a reception for the pastor and district superintendent tomorrow evening in the church parlors. Friends of the church are cordially invited.

Prof. Kohl's dancing classes will meet Friday afternoon and evening. Ladies' and men's underwear in the unusually "hard to find" extra sizes at same prices as the regular sizes. Our stock is extra large and prices the lowest. T. P. Burns.

Only Way to Exercise. Women, there is no doubt, run easily into excess as far as exercise is concerned. They will either take no exercise at all and sit huddled over a book or piece of fancy work or they will suddenly start to walk and continue walking until they almost drop. Exercise to do good should be gentle and regular.

JOKERS' CORNER.

FORTY YEARS AGO

Janesville Daily Gazette, Oct. 11, 1868.—Parade of The Colored Tanners.—Last evening the colored tanners of this city made their first public parade. They made a very creditable appearance and notwithstanding the fact that the streets were in a bad condition, they showed that they were not afraid of a little mud by taking to the center of the thoroughfare.

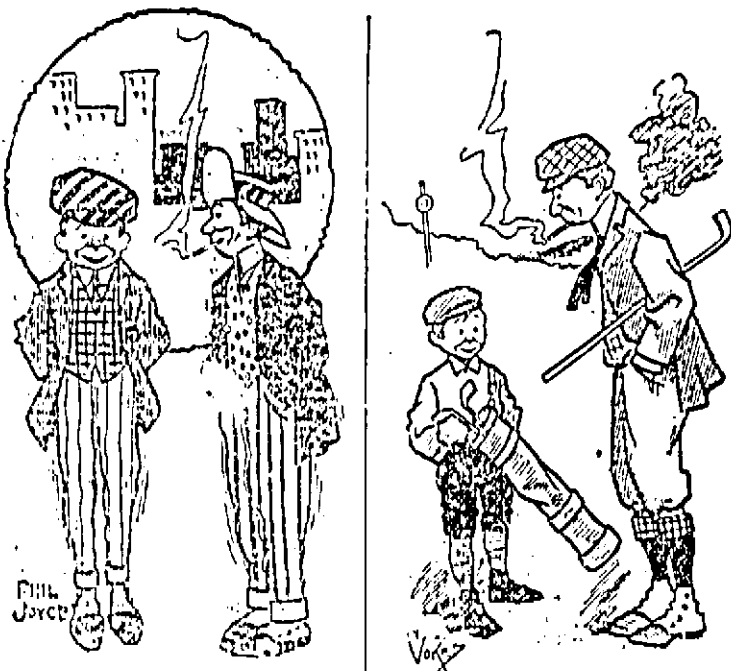

The Place for Holding the Mass Meeting.—The place fixed upon for holding the Republican Mass Meeting of the 16th is the same as that occupied for the meeting when Mr. Colfax spoke here in 1864, just east of the high school building. It is one of the finest places for the purpose that can be found anywhere.

Attempt To Kill Thirty-Six Girls.—Kosquin, Ia.—Some miscreants of Harrison township made a dastardly attempt to murder the thirty-six young ladies who represented the state at the Republican rally at Des Moines, Saturday night, by placing rails on the road, piling them up on top of the other, so that when the wheels of the wagon should run upon them, the whole would upset precipitating

horse, wagon, and all over the steep embankment into the gully below; and to make sure that their cowardly scheme would not fail, they piled them across the road in an oblique manner, the horses in attempting to avoid them would run the wheels of the wagon over the embankment. The light from the lamps carried by the tanners is all that saved them, the driver being thus able to see the obstructions across the road.

Boiler Explosion.—As a passenger train on the New York Central Railroad, going west, was crossing the Cayuga Lake, when about half way across the water, the boiler exploded, throwing the fragments into the lake. Four men were riding on the engine, none of whom were seriously injured. There was great consternation among the passengers, but fortunately, none of the cars were thrown from the track.

Getting In Their Foundations.—Mr. Adam Wilson is making very creditable progress with his new shop. The foundation is already in. Messrs. Britton and Harrison and Alex. Graham have the submerged foundations for their new block already in.

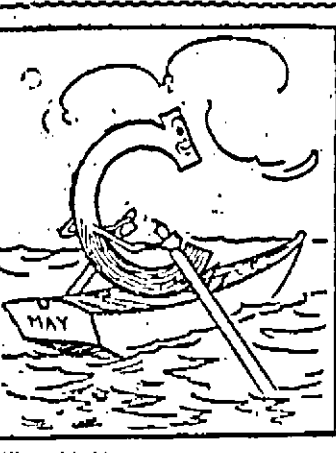

THIRDSOME.
"Don't it seem the way people talk about the weather?"
"Thirdsome? It's positively dangerous. The minute you utter a word about the weather it gives the other fellow a chance to say, 'Yes, but it'll be a cold day for the one or the other yet.' No day for either just this way you know, unless it's a day for a political discussion."

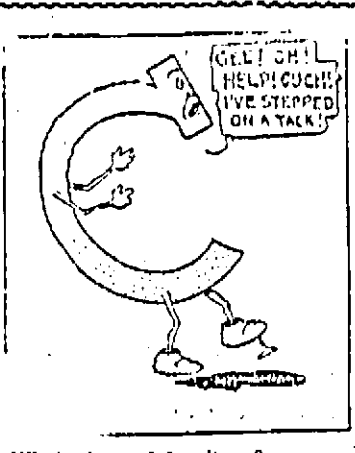

A GOOD BOY.
"Self Beginner—Honey, do I seem to be getting on to the game of golf?"
"The Gaffer—Oh, sir, I'm a regular student at Sunday school; would you ask me something else?"

NO CHANCE.
Nathan—That my serious love affairs yet?
Nathaniel—No, and I never will have her. Why, the water in the creek isn't over four feet deep anywhere. How can a girl get beyond her depth and be rescued in such a puddle as that?

FLUFF RUGS

A beautiful soft rug made of your old carpets at a saving of 25 per cent.

Your old carpets are first put through a cleaning process, then cut in strips of uniform width. The strips are frayed evenly by perfected machinery. It is then rolled by machine and is ready for the loom. Our looms are constructed so as to set the material on edge and in weaving the warp is invisible, which gives the rugs an even, harmonizing effect.

The cost is 75c a square yard. If you care to call we will show you many made-up designs and give full explanation. Phone or write for a representative with samples.

We have perfected a new method of making fluff rugs which we call the "fine cut." It makes a rug as durable as the fluff, same design but shorter knapp. It requires but half the amount of material and is woven cheaper. Ask about it.

BOLD CRIME IN BROOKLYN.

Robber Ties Woman and Plunders Hours of Valuables.

New York, Oct. 14.—Representing himself to be a real estate agent, a young man of business-like appearance and well dressed gained access to the home of Summerfield McLean, a wealthy Brooklyn publisher, Tuesday, and while Miss Beatrice Masten, a sister of Mrs. McLean, was showing the man over the premises, he suddenly overpowered her, bound her arms and legs with picture wire, tied a gag over her mouth and then leisurely searched the house for valuables.

It was nearly an hour before the young woman was discovered. She was suffering so from shock that she was hardly able to tell what had happened. The room was in wild confusion, showing that the robber had searched everywhere for valuables. He got away with jewelry and silverware worth \$1,000.

Noted Educator Dies Suddenly.
Norwich, Conn., Oct. 14.—The death of Dr. Daniel C. Gilman of Baltimore, formerly president of Johns Hopkins university, occurred here suddenly Tuesday afternoon. He had gone to his room to prepare for a drive after dinner, where he was found helpless on the floor by his wife. He arrived here Monday for a visit with his sisters. Dr. Gilman was born here July 6, 1831, and burial will take place here.

Nickel Plate City Falls.
Chicago, Oct. 14.—Nickel Plate City, consisting of 30 acres just south of Gary, Ind., which was platted by Indiana promoters in 1893, will be sold under the hammer within the next 30 days to satisfy a court judgment. A writ was executed against the tract in the circuit court of Lake county, Indiana, Tuesday in behalf of John Zomnecchi of Indianapolis.

NEWLY SELECTED EMBLEM OF THE PROHIBITION PARTY.

The democrats have their donkey and the prohibitionists their elephant, but now a third animal is about to be added to the political menagerie as the trademark of the prohibition party.

Thomas Nast, who originated the donkey and the elephant, was the father of the American cartoon, and strongly partisan. The donkey was originated in ridicule at the time. During the succeeding years, however, the emblem has been taken up and now is the accepted trademark and is highly honored as such by friends of the party. It is safe, however, for Presidential Nominee Chaffin of the prohibition party to select a logical emblem for the prohibition party and he selected wisely.

Some years ago there was a saying among the wayward college youths which ran as follows:

"The camel can go 10 days without drinking, but who wants to be a camel?"

Whether Chaffin realized the humor of the situation or not, the fact remains that the camel has to a certain extent, already become emblematic of the prohibition party.

In selecting an emblem the camel was strongly in favor for another reason, namely, his patience. Like the prohibitionists, he is a good "waiter" and is always ready to share the hardships of others. Still another interesting feature in which he might be compared to the prohibition party this year especially is, to quote the slang phrase of the street, that "he has got a hump on himself."

These are days of strenuous advertising, not only in business but in politics. Never before have political candidates so systematically advertised themselves and their policies as in this campaign. It is a recognized fact that one of the first essentials of good advertising is some definite trademark or emblem which when seen will always remind one of the advertiser. Animals have been especially popular as trade marks and political parties are only following a line of good advertising when they continue to use their respective emblems.

No doubt the "ships of the desert" would throw out their chests in pride could they realize the honor conferred upon them by the prohibition party.

KEEFE IS ACCUSED OF SELLING OUT

DEMOCRATS ASSERT PRESIDENT BOUGHT HIM WITH OFFICE.

LABOR LEADER IN DENIAL

Bryan Campaigning in Nebraska and Taft Among Iron Workers of Ohio—DuPont's Successor Named.

New York, Oct. 14.—The Democratic national committee, through John J. Gordan, assistant and acting chief of the press bureau at headquarters, Tuesday night made public the following statement:

"It was stated at the national Democratic headquarters that President Roosevelt by promise of office has succeeded in having one of the big men of the American Federation of Labor desert President Gompers in his advocacy of the election of Mr. Bryan for the presidency.

"The labor leader in question is Daniel J. Keefe of Detroit, president of the International Association of Longshoremen, and one of the vice-presidents of the Federation of Labor. Say Bargain Was Made.

"The Democratic committee alleges that Keefe and the president were closeted for several hours in Washington on Saturday, October 3, and the offer of being named commissioner general of Immigration, made vacant by the death of Commissioner Sargent, was made. In consideration of Keefe repudiating Mr. Gompers and the executive council of the Federation.

"Keefe on Saturday last issued a statement in which he said: 'I am going to vote for William H. Taft.'

"It is pointed out that on September 28 last the executive council of the American Federation of Labor issued a circular calling on organizations of labor to work for the defeat of Mr. Taft and Republican congressmen, seeking re-election, and Mr. Keefe authorized his signature to be attached to it.

"The source of the Democratic committee's information was not divulged, but the information was offered that if Mr. Keefe or President Roosevelt deny the charge another big labor leader, now in New York, will come forward with facts to prove that the offer was made, and Mr. Keefe accepted it, and has commenced to make good his part of the deal."

Flatly Denied by Keefe.

Detroit, Mich., Oct. 14.—President Keefe of the Longshoremen's union Tuesday night categorically denied the statement issued from Democratic headquarters in New York that he had been offered the position of commissioner general of Immigration in re-

turn for his support of W. H. Taft.

Bryan in His Home State.

Wahoo, Neb., Oct. 14.—Accompanied by all the Democratic candidates for state offices, with the exception of one or two, William J. Bryan Tuesday evening in his own state, and at night at this place completed the first of his three days' Nebraska tour. Big crowds greeted him at every point, and when his day's work was over he had delivered 21 speeches, varying in length from five minutes to an hour. His arguments were confined mostly to answering the statements of Mr. Taft and Gov. Hughes, who but recently visited Nebraska.

Taft Talks to Iron Workers.

East Liverpool, O., Oct. 14.—In the midst of the steel and iron district of Cleveland, William H. Taft Tuesday commanded the closest attention of an immense audience in what is proverbially regarded as the hardest place in the state of Ohio for a political speaker to obtain a respectful hearing.

The immense tent in which the meeting was held was reached by a four-mile automobile ride through Cleveland, and the audience patiently waited. When Mr. Taft appeared he was warmly welcomed. This meeting

Mr. Taft considers the best and most effective he has had on his present trip, because of the character of the audience, its known Democratic and Socialist tendencies and the success he had in riveting attention.

The Taft special ran into its first mishap Tuesday. The front trucks of the candidate's car and the rear trucks of the Pullman preceding it went off the track just as the train was coming to a halt on a siding at Sterling, shortly after ten o'clock. A half-hour delay was caused.

Bennett Succeeds DuPont.

New York, Oct. 14.—Chairman Hitchcock of the Republican national committee announced Tuesday night that Representative W. S. Bennett, member of the lower house of congress from one of the districts in New York city, had been selected as chairman of the speakers' bureau in place of Mr. DuPont, who recently resigned.

New Yorkers Fond of Sweets.

A Broadway dealer in candy says that he has sold sweets in Chicago, Philadelphia, London and Paris, but that the New Yorkers consume more per capita than the people of any of the other cities.

CAN IT BE THE FAULT OF YOUR CHILDREN'S EYES?

The EYES of children should never be neglected. Many children return from school at night with a severe headache, or nervous and drowsy feeling. It may be nothing but EYE-STRAIN that caused all this ill-feeling and leaves the student unfit for study the next day. If your child shows these symptoms call and have its eyes examined and have them properly fitted with glasses. It means a saving to you in cost and adds many future benefits to the child in after life.

AMERICA'S DEAD SEA, WHICH CONTAINS 17,560,338,200,000 POUNDS OF SALT AND 1,563,100,000,000 POUNDS OF SULPHIDE OF SODA.

Salt Lake City, Utah.—Utah is just beginning to appreciate the immense value of her salt lake. The Chicago Inter-Ocean is authority for the statement that the great Salt Lake now contains 8,780,160,000 tons of salt and 781,080,000 tons of sulphide of soda. The magnitude of the figures indicated is hard to grasp. For example, take the salt crop alone. The proximate 17,560,338,200,000, Salt wholesalers at

2.00 per barrel and each barrel contains 200 pounds. It is a brief mathematical operation which discloses the fact that the monetary valuation of Great Salt Lake in its salt product alone would be \$175,000,382,000. Last year the total wheat crop of the United States was estimated at \$500,000,000. It is therefore 35 times greater than the total wheat crop of the United States.

We have made every effort this season to please the most exacting patrons when it comes to purchasing furs, as our assortment will show.

EARLY CHOOSING OF FURS IS BEST CHOOSING. Now is the time, not only to plan, but to carry out the plans for buying furs.

Our furs are made of first quality full sized skins, and for quality, workmanship and trimming cannot be equalled. You run no risk of getting seconds or inferior goods even though our prices may seem ridiculously low. Owing to the immense quantities we buy and our long experience, we get every price advantage, which is reflected in prices which we offer on furs.

The Black Pony Skins come in 24 and 26 inch lengths, as well as the natural Pony Skins in blended shades of brown and tan.

The Nearseal Coats in both plain and Jap mink trimmed are here in good assortment. The illustration in the center shows one of the popular styles.

The animal shaped rugs, or muffs, so popular this season, are shown here in good assortment. The muffs are made of full sized skins, head and tails, with pocket for muff, while the rug ends can be arranged in different ways.

Scarfs and Muffs in Jap mink. We have an almost endless variety of these, as well as in the genuine mink sets and the black mink which is so scarce this year.

The illustration below shows a brown marmot fur coat, 48 inches long, a soft pliable fur, very durable, especially nice for dress occasions, for riding and autoing. The same material comes in shorter lengths, 36 and 42 inches long. It's a fur that is becoming very popular.

Our River Mink Fur Coats, both dark and light blended, are especially good values. They come in 24, 26 and 40 inch lengths.

The fitting of these garments is excellent. We have handled them for a long time and have had excellent satisfaction.

We have a number of Black Astrachan Coats, excellent fur, tightly curled and silky. This year we also show them in the larger sizes up to 44 and 46.

Blue Fox Sets. These colors are very hard to get as the dyes do not always take well in the soft blue shades which are so much desired and worn so well with suits. At \$20 we have a full line of sets, muffs and throws to match.

Our furs are all bought early and inspected after they come in and we know that they are reliable in every way.

In the lower priced furs we can suit almost every taste.

The showing of River Mink Muffs and Scarfs is particularly attractive. Scarfs can be purchased as low as \$1.25 and up to \$5.00, while Muffs run from \$3.50 to \$8.00.

The Coats range in price from \$55 to \$80 in the best grades, and in the less expensive from \$35 to \$70
